

Chang Liu

UNDERGRADUATE IN ASTRONOMY

100871, Peking University, Haidian District, Beijing, China

✉ 1600012139@pku.edu.cn | 🌐 <https://slowdiveptg.github.io> | 📱 slowdivePTG

“Explore the universe, benefit the society.”

Education

Peking University

ASTRONOMY

- GPA 3.85/4 - Top 2 among ~30 students

Beijing, China

Sept. 2017 -

Peking University

LIFE SCIENCES

- GPA 3.87/4 - 1st among ~120 students

Beijing, China

Sept. 2016 - June. 2017

Skills

Programming Python, shell, C++, Fortran, LaTeX

Languages Chinese, English

Softwares Photoshop, Lightroom, Illustrator

Experience

Department of Astronomy, Peking University

UNDERGRADUATE RESEARCH & TRAINING PROGRAM

- Worked on the chemical impacts of an AGN, especially the impact on the synthesis of prebiotic organic molecules, to indicate the potential correlation between the activity of a supermassive black hole and both the origin and the evolution of life.
- Calculated the ionization rates of electromagnetic radiation caused by accretion the supermassive black hole in the Milky Way, in different galactic distance from the black hole.
- Modified and completed the codes for photo-ionization processes of various atoms and molecules based on the widely used package in astrochemistry - KROME.
- Calculated the chemical evolutions of crucial precursors for interstellar prebiotic molecules.

Beijing, China

Jul. 2018 -

Extracurricular Activity

Summer Camp of Astronomy for Outstanding Senior Students (Peking University)

VOLUNTEER

- Helped prepare for the welcome day, offered guidance and service to campers

Beijing, China

Jul. 2018

Investigation Group on Bike-sharing in Xiamen (School of Life Science)

CORE MEMBER

- Investigated the present condition and analysed the future development of several brands of shared bikes in Xiamen, one of the largest cities in South-east China
- In charge of organizing the draft of both our investigation proposal and the report,

Xiamen, China

Jul. 2017

Department of Daily Life, Student Union (School of Life Science)

MEMBER

- Organized various activities to improve the life quality including organizing social mixers and designing games for the New Year Party
- Helped design a questionnaire and conducted a census on the current living and studying conditions of students in School of Life Sciences, reflected the problems to the dean and negotiated possible solutions
- In charge of *Calendar of Species* program of the WeChat public account of the Student Union, conducted popular science promotion about various planets in literary essays

Beijing, China

Sept. 2016 - Jun. 2017

Honors & Awards

2018	Merit Student , Annual honor of 2017-2018, School of Physics, Peking University	<i>Beijing China</i>
2018	Weilin Scholarship , Annual scholarship of 2017-2018, School of Physics, Peking University	<i>Beijing, China</i>
2017	Merit Student Pacesetter (the Highest Annual Accolade) , Annual honor of 2016-2017, School of Life Sciences, Peking University	<i>Beijing, China</i>
2017	Arawana Scholarship , Annual scholarship of 2016-2017, School of Life Sciences, Peking University	<i>Beijing, China</i>
2017	Third Prize , The Alumni Cup for Summer Social Practice, School of Life Sciences, Peking University	<i>Beijing, China</i>
2017	Excellent Student Union Member , Annual honor of 2016-2017, Student Union of School of Life Sciences of Peking University	<i>Beijing, China</i>
