“Explore the universe, benefit the society.”

Education

Peking University

Beijing, China

UNDERGRAD IN LIFE SCIENCES (SWITCHED TO ASTRONOMY)

Sep 2016 - Jun 2017

- GPA 3.87/4, Rank 1/120

Peking University

Beijing, China

UNDERGRAD IN ASTRONOMY

Sep 2017 -

- GPA 3.83/4, Rank 1/28

SOME ADVANCED COURSES

- Astrophysics: 96
- Theoretical Astrophysics - Stellar Atmospheres: 92
- Astronomical Spectroscopy: 92
- Gravitational-Wave Astrophysics (Graduate Course): 92

STANDARDIZED TESTS

- TOEFL iBT: 111. Reading: 30, Listening: 30, Speaking: 25, Writing: 26
- GRE General: Verbal 151/170, Quantitative 170/170, Analytical Writing 3.5
- GRE Physics: 970/990, Percentile 93%

Skills

Programming Python, Shell/Zsh, C++, Fortran, 中文

Languages Chinese, English

Softwares Photoshop, Lightroom, Illustrator

Experience

Department of Astronomy, Peking University

Beijing, China

IMPACT OF AN ACTIVE SGR A* ON THE BIOGENIC AND ORGANIC MOLECULES THROUGHOUT THE MILKY WAY

Jul 2018 -

Mentor: Xian Chen

- Undergraduate Research & Training Program - National Innovation Training Program
- Investigated the impacts of an AGN on the synthesis of prebiotic/organic molecules to indicate the potential correlation between an active supermassive black hole and both the origin and the evolution of life.
- Calculated the ionization rates of electromagnetic radiation caused by accretion the supermassive black hole in the Milky Way.
- Completed the codes for photo-ionization processes of various atoms and molecules based on the widely used package in astro-chemistry - KROME.
- Simulated the chemical evolution of crucial precursors for interstellar prebiotic molecules.

Astronomy Department, Caltech

Pasadena, US

A SYSTEMATIC SEARCH FOR PERIODIC WHITE DWARFS USING ZTF DATA

Jun 2019 - Aug 2019

Mentor: Shrinivas R. Kulkarni

- Summer Undergraduate Research Fellowship (SURF)
- Explored the potential of the state-of-the-art time-domain facility - Zwicky Transient Facility (ZTF) by conducting a systematic search for periodic white dwarfs with periods lying within 1-3 hr.
- A cross match between *Gaia* and ZTF was performed, selecting $\sim 90,000$ *Gaia* sources with enough ZTF data.
- A number of 81 sources stood out as periodic under the Lomb-Scargle Periodogram.
- A analysis in the shapes of light curves derived from ZTF as well as color analysis with *Gaia* and PanSTARRS data led to discovery of eclipsing systems, reflection systems, cataclysmic variables and other sources of interest.

Mentor: Enrico Ramirez-Ruiz

- Study the stability of mass transfer in a white dwarf binary with hydrodynamical simulation.

Honors & Awards

- Oct 2019 **Merit Student**, Annual honor of 2018-2019, School of Physics, Peking University
- Oct 2019 **PKU Scholarship**, Annual scholarship of 2018-2019, School of Physics, Peking University
- Jun 2019 **PKU scholarship in Physics**, School of Physics, Peking University
- May 2019 **National Innovation Training Program**, Undergraduate Research & Training Program
- Oct 2018 **Merit Student**, Annual honor of 2017-2018, School of Physics, Peking University
- Oct 2018 **Weilin Scholarship**, Annual scholarship of 2017-2018, School of Physics, Peking University
- Oct 2017 **Merit Student Pacesetter (the Highest Annual Accolade)**, Annual honor of 2016-2017, School of Life Sciences, Peking University
- Oct 2017 **Arawana Scholarship**, Annual scholarship of 2016-2017, School of Life Sciences, Peking University
- Sept 2017 **Third Prize**, The Alumni Cup for Summer Social Practice, School of Life Sciences, Peking University
- Sept 2017 **Excellent Student Union Member**, Annual honor of 2016-2017, Student Union of School of Life Sciences of Peking University

Presentation

The Project Presentation for the SURF Program, Caltech

Pasadena, US

A SYSTEMATIC SEARCH FOR PERIODIC WHITE DWARFS

Aug. 2019

Extracurricular Activity

Summer Camp of Astronomy for Outstanding Senior Students (Peking University)

Beijing, China

VOLUNTEER

Jul. 2018

- Helped prepare for the welcome day, offered guidance and service to campers

Investigation Group on Bike-sharing in Xiamen (School of Life Science)

Xiamen, China

CORE MEMBER

Jul. 2017

- Investigated the present condition and analysed the future development of several brands of shared bikes in Xiamen, one of the largest cities in South-east China
- In charge of organizing the draft of both our investigation proposal and the report,

Department of Daily Life, Student Union (School of Life Science)

Beijing, China

MEMBER

Sept. 2016 - Jun. 2017

- Organized various activities to improve the life quality including organizing social mixers and designing games for the New Year Party
- Helped design a questionnaire and conducted a census on the current living and studying conditions of students in School of Life Sciences, reflected the problems to the dean and negotiated possible solutions
- In charge of *Calendar of Species* program of the WeChat public account of the Student Union, conducted popular science promotion about various planets in literary essays
